22 marvel movies in order of release date

There are currently 25 Marvel Cinematic Universe movies and counting, all of them taking place in the same universe and connected by characters, events, and settings. So you'd be forgiven for being a little confused as to how, exactly, they all fit together and which order to watch them in. Marvel broke new ground with 2012's *Marvel's The Avengers*, which brought together disparate heroes from their own individual movies (Robert Downey Jr.'s Iron Man, Chris Evans' Captain America, and Chris Hemsworth's Thor) into one team-up movie, before then splitting them off again into their own sequels. Of course this way of telling stories had been done in comics, but telling a serialized story across many, many films with diverse tones and characters was brand new, and continues to be a gold mine of compelling stories and characters. But as the MCU has grown in quantity, it's also grown in complexity. Some films take place worlds away but at the same time as events that are occurring on Earth. And some films take place in the far past. If you're wondering how to watch the Marvel movies in order, we've got you covered. Below we're offering two viewing options: the Marvel movies in order of chronological events, and the Marvel movies in order of when each film was released in theaters. Both are highly recommended and are the ideal ways to view this series if you're in the mood to binge-watch a franchise. And below that, we've got a rundown of how to watch the Marvel Disney Plus shows in order. The order of these lists also pulls heavily from our own comprehensive MCU timeline, which gets into the nitty-gritty of when every event happens in the Marvel Cinematic Universe. **Marvel Movies in Order of Release** Image via Marvel Studios Here are all the Marvel Cinematic Universe movies in order of when they were released, broken up into "phases" that Marvel Studios uses to denote smaller story arcs within the larger MCU arc. **Phase One** Iron Man - May 2, 2008 **The Incredible Hulk** - June 13, 2008 **Iron Man 2** - May 7, 2010 **Thor** - May 6, 2011 **Captain America: The First Avenger** - July 22, 2011 **Marvel's The Avengers** - May 4, 2012 **Phase Two** **Iron Man 3** - May 3, 2013 **Thor: The Dark World** - November 8, 2013 **Captain America: The Winter Soldier** - April 4, 2014 **Guardians of the Galaxy** - August 1, 2014 **Avengers: Age of Ultron** - May 1, 2015 **Ant-Man** - July 17, 2015 **Phase Three** **Captain America: Civil War** - May 6, 2016 **Doctor Strange - November 4, 2016** **Guardians of the Galaxy, Vol. 2** - May 5, 2017 **Spider-Man: Homecoming** - July 7, 2017 **Thor: Ragnarok** - November 3, 2017 **Black Panther** - February 16, 2018 **Avengers: Infinity War** - April 27, 2018 **Ant-Man and the Wasp** - July 6, 2018 **Captain Marvel** - March 8, 2019 **Avengers: Endgame** - April 26, 2019 **Spider-Man: Far from Home** - July 2, 2019 **Black Widow** - July 9, 2021 **Shang-Chi and the Legend of the Ten Rings** - September 3, 2021 **What's Next in Phase Four** **Eternals** - November 5, 2021 **Spider-Man: No Way Home** - December 17, 2021 **Doctor Strange in the Multiverse of Madness** - March 25, 2022 **Thor: Love and Thunder** - May 6, 2022 **Black Panther: Wakanda Forever** - July 8, 2022 **The Marvels** (aka **Captain Marvel 2**) - November 11, 2022 **Ant-Man and the Wasp: Quantumania** - February 17, 2023 **Guardians of the Galaxy Vol. 3** - May 5, 2023 **Marvel Movies in Chronological Order of Events** Image via Marvel Studios 1. **Captain America: The First Avenger** Chronologically speaking, the film that is set the earliest in the MCU timeline is *Captain America: The First Avenger*. The Steve Rogers origin story begins in the year 1940 with Steve (Evans) and Bucky Barnes (Sebastian Stan) enlisting and ends in 1945 with Steve's plane crashing and him being frozen for the next half-century. 2. **Captain Marvel** Next up we have *Captain Marvel*, which is actually one of the most recent Marvel movies but whose events precede those of the main MCU timeline. Brie Larson's pilot character crashes her plane in the year 1989 and is subsequently trained as a Kree before returning to Earth in 1995, which is the year in which most of *Captain Marvel* takes place. 3. **Iron Man** The first Marvel movie released is third in chronological order, and believe it or not—according to Marvel's own timeline—it actually takes place in the year 2010 and not 2008 when it was released. 4. **The Incredible Hulk** The events of the Edward Norton *Hulk* movie take place shortly after the events of *Iron Man*. 5. **Iron Man 2** The *Iron Man* sequel is set in the year 2011. 6. **Thor** The events of *Thor* also take place in 2011, around the same time as the events in *Iron Man 2*, although there are flashbacks to events that go back centuries. 7. **The Avengers** The team-up finally occurs in the year 2012. 8. **Iron Man 3** The underrated *Iron Man 3*, which deals heavily with Tony Starks' PTSD from the events of *The Avengers*, take place in the year 2012. 9. **Thor: The Dark World** The forgettable sequel is set in the year 2013. 10. **Captain America: The Winter Soldier** The big fall of S.H.I.E.L.D. is set a couple of years after the organization helped form *The Avengers*, set in 2014. 11. **Guardians of the Galaxy** also take place in 2014, around the same time as *The Winter Soldier*. 12. **Guardians of the Galaxy Vol. 2** The *Guardians* sequel takes place a couple of months after the events of the first film. 13. **Avengers: Age of Ultron** The second *Avengers* team-up film takes place in the wake of S.H.I.E.L.D.'s dismantling, in the year 2015. 14. **Ant-Man** While the *Avengers* are fighting off Ultron, Scott Lang is busy becoming *Ant-Man* in 2015. 15. **Captain America: Civil War** The *Captain America* sequel that's also kinda-sorta an *Avengers* movie takes place in 2016, bringing additional characters into the fold to set the table for *Infinity War* and *Endgame*. But it also contains flashbacks that take place between *The First Avenger* and *Iron Man*, revealing the circumstances that surrounded the death of Tony Stark's parents. 16. **Black Widow** The *Black Widow* movie takes place in the immediate wake of the events of *Captain America: Civil War* and finds Scarlett Johansson's Natasha Romanoff on the run. It ends before the events of *Avengers: Infinity War* begin. 17. **Spider-Man: Homecoming** The first MCU *Spider-Man* movie takes place the fall after the events of *Captain America: Civil War*, with Tom Holland's Peter Parker struggling to become his own hero. 18. **Black Panther** 2016 is a busy year in the MCU, as it's also when *Black Panther* takes place over in Wakanda. 19. **Doctor Strange** *Doctor Strange* bridges the gap between 2016 and 2017, as *Stephen Strange's* transformation into a superhero takes a bit of time. 20. **Thor: Ragnarok** *Thor: Ragnarok* takes place in 2017 shortly after the events of *Doctor Strange*, as we see *Thor* visit *Doctor Strange* on Earth to try and track down his father. 21. **Ant-Man and the Wasp** Despite being released after *Avengers: Infinity War*, the events of *Ant-Man and the Wasp* take place in 2018 right before *Thanos* arrives on Earth and the film ends with the infamous *Thanos Snap*. Although there are flashbacks to *Hank Pym* (Michael Douglas) and *Janet Van Dyne* (Michelle Pfeiffer) in the late 1980s. 22. **Avengers: Infinity War** The events of *Avengers: Infinity War* take place over a very compressed time period—just 24-48 hours—in 2018. 23. **Avengers: Endgame** The second have of the *Infinity Gauntlet* storyline begins shortly after the *Thanos snap* in 2018, but after *Thor* cuts *Thanos' head* off, the film flashes forward and is set primarily in the year 2023—although it also sees the characters traveling back in time to events in the years 1970, 2012, 2013, and 2014. 24. **Spider-Man: Far from Home** *Spider-Man: Far from Home*, takes place shortly after the events of *Avengers: Endgame*. 25. **Shang-Chi and the Legend of the Ten Rings** While *Shang-Chi* and the *Legend of the Ten Rings* begins with a prologue that takes place hundreds of years in the past and also features extensive flashbacks to the year 1996, the bulk of the film takes place in the year 2023 not too long after the events of *Avengers: Endgame*. Image via Disney WandaVision - Premiered January 15, 2021 **The Falcon & The Winter Soldier** - Premiered March 19, 2021 **Loki** - Premiered June 11, 2021 **Marvel's What If...?** - Premiered August 11, 2021 **Hawkeye** - November 24, 2021 **Marvel Disney Plus Shows in Chronological Order** Image via Disney+ All of Marvel's live-action Disney Plus shows thus far take place after the events of *Avengers: Endgame*, but with the introduction of time travel and multiverses, it can be a bit tricky to figure out the exact chronological order. 1. **Loki** A peak example of how tricky the timeline is getting, *Loki* is set after the events of *Avengers: Endgame*, but picks up with the alt-Loki who got his hands on the tesseract and escaped. That means *Loki* technically picks up back in 2012 after *The Avengers' Battle of New York*. However, once the TVA gets involved *Loki* takes place at multiple points in the timeline, from the distant past to the near-future, and indeed, outside time itself when within the walls of the TVA. 2. **WandaVision** Despite the illusion of taking place in multiple eras, *WandaVision's* timeline is actually much more clean cut. The series takes place very soon after the events of *Avengers: Endgame*, in the year 2023. Through the various experiences of the characters, the series takes us from the moment that the blipped returned through about a month later. That means the series is set after *Endgame* but before *Spider-Man: Far From Home*, which takes place about eight months after the end of *Endgame*. 3. **The Falcon and The Winter Soldier** Likewise, *The Falcon and The Winter Soldier* also takes place in 2023, between *Endgame* and *Far from Home*, but a bit later than *WandaVision*. When we spoke with director Kari Skogland, she revealed that the series is set about six months after the events of *Endgame*. 4. **Marvel's What If...?** Set within various alternate timelines of the multiverse, the animated series *Marvel's What If...?* isn't exactly set within the established timeline of the MCU, but beside it, ranging from the events of *Captain America: The First Avenger* to *Guardians of the Galaxy* and more.
